.....THIS IS THE PIANO.....

Some Young Lady Will Get.

Given Away by the "Interurban Press."

READ!

ON MARCH 4, 1905, the day the President will be inaugurated, we propose to give absolutely FREE OF COST to the lady who secures for us the largest amount of money for subscriptions or advertising to the CAMPBELL INTERURBAN PRESS a beautiful Golden Oak Curtaz Piano, costing \$325.00, now on exhibition in our show window. It must be seen to be appreciated.

To the young man or lady, boy or girl, who brings in the second largest amount we will give a \$50.00 Scholarship Course in the Pacific Coast Business College.

To the young man or lady, boy or girl, who brings in the third largest amount we will give a beautiful solid Silver Hair Brush and Comb in a neat case.

To the young man or lady, boy or girl, who brings in the fourth largest amount we will give a fine French Plate Hand Mirror.

**WHO WILL WIN THE
\$325 CURTAZ PIANO?**

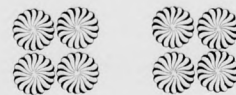

Now As to the Plan

Every subscription to the PRESS of \$1 will count as 100 credits, and you can subscribe for as many years as you wish and have 100 credits for each subscription placed to the credit of any of the young lady contestants. Every advertisement secured for the paper will be governed by the same rule. A dollar a month ad. will count for 100 credits; a two dollar ad. 200 credits, etc. Paid locals will count the same. Credits given for every penny turned into this office between now and March 4th, '05. We want young men and young ladies in the outlying districts to go to work for the PRESS, as well as in town. How can you earn such valuable premiums more easily? An hour or two a day from now on may do it. The contest will be conducted in a perfectly honest and honorable manner and all parties going to work can depend on it that they will be treated absolutely fair. Come in and get the necessary information. Let us explain the plan to you.

NOTE--Those who have paid anything since the PRESS started either for back subscriptions or in advance, or for advertising, are entitled to come in and have their credits counted.

Thanks to the Newspapers.

SAN FRANCISCO, CAL., NOV. 1, 1904.
Mr. Elgin C. Hurlbert, Editor "Interurban Press," Campbell, Cal.:

MY DEAR HURLBERT—I wish to thank you for your notice of the work of the California Promotion Committee in your issue of recent date. If I remember rightly the committee has before had occasion to express to you its thanks for your mention of its work, and the work of our allied organizations throughout the state. I do not feel, however, that the time will ever come when we should cease to express to the newspapers of this state our thanks for their co-operation in the good work. It is to the newspapers largely that the sentiment is due which has resulted in this organized work. It is an emphatic comment upon the public spirit of the press that such organized work has been recognized, and I am glad to see that among the newspapermen of California there are many of the most active development workers in this state.

Cordially yours,

RUFUS P. JENNINGS.

Fruit Growers' Convention.

Ellwood Cooper, state horticultural commissioner, in a circular letter says that very complete arrangements are being made for the thirtieth annual fruit grower's convention, which will open at

San Jose, on Tuesday, Dec. 6th, and hold sessions for three days.

The Unitarian church has been secured for the meetings, and special rates to delegates will be granted by the railroads and hotels.

The principal work of the convention will be to effect a harmonious organization of fruit growers, which will insure a fair profit for their labors. It is urged that every fruit grower in California should attend the convention, if possible.

Don'ts.

Don't allow stoves near unprotected wood.

Don't allow steam pipes in contact with wood.

Don't allow matches within the reach of small children.

Don't neglect a defective flue. It is always dangerous.

Remember that greasy rags sometimes burn spontaneously.

Don't permit a lighted lamp to stand on a table easily upset.

Steam boilers and pipes should not be allowed to gather dust.

Don't allow water buckets to remain empty, nor hose to go untested.

Don't allow gas brackets which come in contact with wood or curtain.

Don't allow rubbish to accumulate in basements, back yards, closets, etc.

If you live in the city, remember the locality of your nearest fire-alarm box.

Don't allow matches around in other than metal or earthenware receptacles.

Don't allow the oil in lamps to get low. A full kerosene lamp never explodes.

Don't burn snapping coal or wood in

an open grate unless there is a wire screen in front.

Don't allow smoking in factories, binderies, planing mills, saw mills, etc.—Ex.

PATRONIZE OUR ADVERTISERS.

MISSOURI has "shown" us.

ROOSEVELT'S popularity cannot successfully be denied in the face of such a landslide.

THE democrats say that Texas is safe, but the majority is now down to 100,000. Better look out, Lone Star, or Teddy will capture you yet.

JUDGING from the prominent business men and property owners who are favoring the matter of incorporation, there is not a shadow of doubt that the project would carry if placed before the people for their adoption.

THE editor is not a prophet, or the son of a prophet, but he really thought he could get nearer the result of Tuesday's election than he did. The American people are liable to take a notion to do most anything when it comes to politics.

HAVE any of the patrons of the Electric, Gas and Power company had a reduction in their bills on account of the poor light furnished? We have heard of none and presume the minimum of \$1.50 is being collected whether they get the service or not.

HEARST is about the only one that came out of the wreck with flying colors—he having been re-elected to congress in New York by 12,000 and his paper in Boston was instrumental in having elected Douglas governor, while the state went republican by 80,000.

A REACTION against over-processing fruit has set in, helped along by the experience of Prof. Childs at St. Louis that prunes as now prepared for packing mould in about six weeks. It has always been a mystery to the uninitiated why making a slimy mass of the delectable prune, which in its natural state is as clean and pleasant to eat as a raisin, could make it more marketable. And the prune is not the only article of diet spoiled for eating by the efforts to make it better to look at. Figs are put up in packages, dainty as to exterior but inside sticky and disagreeable to handle and frequently mouldy or fermented. Particularly aggravating also is the habit of sulphuring nuts, their fine flavor being almost completely ruined, especially in the case of almonds, whose porous shell absorbs a great quantity of the bleaching fumes. Put these products on the market clean, but with their natural flavor unimpaired, and their sale will greatly increase or we miss our guess.

AN INTERESTING GRANGE MEETING.

The regular Tuesday evening meeting of the Grange was given over as a public meeting. There was a large number present to hear the able speakers, there being a number of prominent fruit men invited. The entire time of the meeting was taken up in a discussion of the prune question. C. D. Harvey opened the discussion by presenting the lamentable condition of the entire prune industry. He used a chart which he had especially prepared to show the very laborious and erroneous method of pricing prunes. For instance, for every 10 sizes there is a different price, so that if a man takes a load of prunes to market and his prunes would grade from 30s to 100s he would be obliged to sell parts of his load for seven different prices. He argued that this was the only commodity that was so foolishly graded, that at most three grades were all that is necessary to-wit: large, medium and small. A more ridiculous method than selling 10 points for one price (as for instance,

50-60 or 60-70) is the making of a dollar a ton advance for each point, in weight. This makes seventy different prices for a load of prunes that would range from 30 up to 100.

Mr. Harvey reasoned that after all expenses of caring for the orchard were paid, it would leave an average of not more than \$5 per ton. Of this amount the railroad is now asking that the grower shall donate \$1 a ton to increase the freight rate which at the present time is \$20 a ton—at least \$10 of which is clear profit.

R. K. Thomas at this point asked what remedy he would propose for the relief of the prune growers in their present dilemma.

Mr. Harvey replied that it could not be done by taxing prunes worth \$5 a ton \$1 more to create a \$150,000 advertising fund when the prunes that are packed and shipped to the east, according to the best information obtainable will not keep but two or three months without fermentation, but the situation may be relieved by the prune growers themselves if they will organize into small associations, say of fifty to one hundred growers, where they can control their own packing and the selling price as well, for with the fruit growers of the valley organized into say twenty-five or fifty organizations the real sellers of prunes in the valley would be reduced to one representative from each association. It would be a very small matter for these few representatives to get together and do what so large an organization as the Cured Fruit Association could not accomplish.

Mr. Henning, the well known orchardist, reviewed the matter of discrimination in freight rates. He went into the subject at some length, showing how beans were carried at the low rate of fifty cents a hundred, while canned goods were carried for seventy-five cents a hundred and sacked prunes at \$1.20 a hundred pounds. He maintained that this was unjust and it was a matter for the growers to stand up boldly against and make a united plea for justice. Mr. Henning reasoned that the railroads, the lumber mills, the box factories and the packers were very closely allied in their business relations and are directly benefitted by the differentiation in the rate for boxed prunes and sacked prunes of twenty cents per hundred. The interest of the grower and the packer do not seem to be identical, the packers having a few thousand dollars invested in warehouses, etc., many of which are located on railroad property, while the orchardists have millions invested and their interest lies primarily in selling their fruit, which can best be accomplished when eastern wholesalers can come to the coast and buy prunes unprocessed in sacks, thus carrying stocks from which their customers are supplied when needed. Under the present system they can only buy as required to meet the actual demand, therefore the grower is obliged to carry the stock, which should be sold out early in the season.

Col. Philo Hersey talked for over an hour and among other things stated that he had had many theories in regard to prunes but he had to come down to the hard facts in dealing with the prune question. In the first place he believed it would be utterly impossible to change the basic price for marketing prunes, however if it could be accomplished he advised that the grades be established as follows: 30s in a class by themselves for fancy pack, 40s, 50s and 60s as a medium grade, 70s, 80s and 90s for small size, and we might easily convert the remainder into pork. By very little reasoning Col. Hersey showed that a very good income had been realized from many prune orchards and that the method by which Mr. Harvey had reduced the net price of a ton of prunes to \$5 was entirely unfair as the conditions which he presented were never carried out in actual fact, while in some places a man might raise small prunes, which when sold at the present low price would leave him worse off than if he had never harvested his crop; yet in the main the condition was not as deplorable as Mr. Harvey had presented it. He also thought there was no need of driving the packer out of business by changing the freight rates on boxed prunes. Neither did he think the orchardist would have to pay the dollar a ton extra for advertising, as it was always conceded that the consumer eventually had to pay the freight. Col. Hersey also thought if the grower would show himself willing to help out his own industry, the railroads would be easily persuaded to do their share in the advertising scheme. He also endorsed the plan of the growers organizing in local districts as he believed it would be the only way the organization of the fruit industry can be brought about which is essentially necessary to the reclaiming of the entire fruit business.

PRESS NOTES

Mrs. E. Pagel is in Sacramento visiting friends.

James Cutting was visiting his relatives here Sunday.

C. A. Briggs is building a porch on his house south of town.

John Cunningham was in Campbell yesterday, representing the Volunteers of America.

Charles Burns has built a barn on his 5-acre Sunny Oaks orchard and will soon build a house. E. F. Woodhull was the carpenter.

The regular meeting of the W. C. T. U. will be held with Mrs. Righter on Wednesday, Nov. 16, at 3 o'clock. Topic—"Purity in Literature and Art."

George Page's new two-story country residence is nearly completed. Messrs. Whitney and Evans did the carpenter work. It is one of the very best dwellings in this section.

Miss Lawrence has folio paper, pencil tablets, ink, tablets, pencils of various kinds, pencil boxes, pencil sharpeners, erasers, fountain pen ink and fillers, cinch paper clips, paper binders, visiting cards, souvenirs.

Wesley, the youngest son of Mr. and Mrs. O. Wheeler, met with a painful accident Tuesday, running a large splinter into his thigh. It was removed by a physician and the little fellow is getting along nicely.

"Eat California Fruit" is the title of a neat little 32-page pamphlet, with an attractive cover, recently issued by the Southern Pacific company to advertise California fruits, as well as tells how to prepare them. Get some and mail them to your eastern friends.

Many of our voters went to San Jose Tuesday evening to receive the returns from the election. Among the number from here were Messrs. J. Brynteson, J. L. Hagelin, E. Pagel, A. Johnson, E. C. Hurlbert, A. E. Howe, S. Hutchins, Chas. Sutter, Ed. Gilman, Lloyd Buffington, J. Bogert, A. D. Van Arsdell, J. D. Sawyer and E. Seagren.

After having issued five numbers of the *Visitor*, Karl Ford, the editor, discontinued its publication last Saturday and he will leave Campbell, having secured a lucrative position somewhere. In quitting the editor says: "With this issue the *Visitor* will again suspend publication. It is with much regret that we make this announcement, however, we feel that the public is entitled to an explanation. When we came to Campbell it was our belief, and is still our belief, that this place, a rapidly growing, prosperous little city, would support a live paper such as it has been our endeavor to make the *Visitor*. Since coming to Campbell we have had a highly remunerative proposition offered us to enter the journalistic field elsewhere and as it would take a long time to build up a business here that would equal the profits to be derived from the proposition which has been set before us, it would be the height of folly to turn this opportunity down and continue the publication of the *Visitor*, which at present is barely paying expenses."

SAN JOSE, CAL.

The Bay Shore Cut-Off.

Some two months ago work was commenced in a small way on the bay-shore cutoff. It is now announced that a contract for the tunnel work has been let and that 2,000 men with teams will be employed. There are to be five tunnels between San Bruno and San Francisco, one 5,000 feet long, the others shorter. The tunnels will be large enough for four tracks and two will be laid as soon as they are completed. An order has been placed for 100,000,000 brick for this work. As has been stated, about two years will be required on the work and the schedule time to Palo Alto will be forty minutes.—*Palo Altan.*

IN THE SUPERIOR COURT OF THE State of California, in and for the County of Santa Clara. In the matter of the estate of Henry Van Syckle, deceased.

Eleanor G. Van Syckle, John W. Van Syckle and Henry E. Van Syckle, as the executors of the last will and testament of Henry Van Syckle, deceased, having filed herein their duly verified petition praying for an order of this court authorizing and directing them to borrow the sum of \$20,000.00, or such less sum as the court may deem necessary where-with to pay the debts of said decedent; and to make, execute and deliver a note or notes to evidence said loan and to provide for its repayment with interest, and for the purpose of securing the payment of said loan and interest to mortgage to the lender of said money the following described real property of said estate, namely:

FIRST—All that certain tract of land situated in the county of Butte, State of California, described as follows, to wit: The fractional north one-half of Section 31, in Township 20 North, Range 2 East, Mount Diablo Base and Meridian, containing 309.20 acres.

SECOND—All those certain tracts of land situated in the county of Glenn (formerly a part of Colusa county) State of California, described as follows: "A." Beginning at a stake on the south line of Walsh's (now or formerly) Home tract; thence south 89 1/2° west along Walsh's fence (now or formerly) west along Walsh's fence, thence south 39° 40' chains to a stake, corner, thence south 9° chains, thence west 2° chains, thence south 9° chains and 70 links to the middle of Stony creek, thence down the middle of Stony creek to St. John's (now or formerly) and thence north 66° chains and 50 links to the beginning, containing 236 acres and being a portion of the Capay Rancho.

"B." Commencing in the center of the county road leading from Colusa to Tehama at a point on the north bank of a slough running across said road about one mile north of St. John's house (now or formerly) on Stony creek, thence running northerly up the center of said county road to the south line of land which belonged (now or formerly) to the late R. J. Walsh, thence west along said south line of Van Syckle (on Aug. 16, 1867), thence south along the eastern line of said lands of Van Syckle to the bank of said slough, thence along the north bank of said slough to the place of beginning, containing 200 acres of land.

"C." Commencing at a mound known as the southeast corner of St. John's ranch (Oct. 16th, 1868) on the division line between the lands (now or formerly) of Jones and St. John, running thence due north to the county road north of Stony creek, thence with the said road in a northerly direction to the north margin of a deep slough, running thence with the meanderings of said slough in a westerly direction to the line between the lands (now or formerly) of A. C. St. John and of Henry Van Syckle, thence due south to the middle of Stony creek, thence down the middle of said creek until it intersects the south line (now or formerly) of Jones and St. John, thence along said line to the point of commencement, containing 300 acres of land, more or less.

Excepting from said two parcels of land described above as "A" and "B," a strip off the eastern side thereof, owned, occupied and used by the Central Irrigation District, a corporation, as and for a ditch or irrigation canal.

It is ordered that all persons interested in the said estate appear before this court, at its court room, in the court house of the county of Santa Clara, State of California, in the city of San Jose, in said county of Santa Clara, on FRIDAY, THE 11TH DAY OF NOVEMBER, 1904, at 10 o'clock A. M., then and there to show cause why said prayer of said petition should not be granted and why said money should not be borrowed or said note or notes made, and the above real property mortgaged to secure a loan to said estate of \$20,000.00, or such less amount as the court may deem meet where-with to pay the debts of said decedent, and that this notice be published at least once a week for five consecutive weeks, in the CAMPBELL INTER-URBAN PRESS, a newspaper of general circulation, printed, published and issued in said county of Santa Clara, before the said day last above mentioned.

For all further particulars of said petition and the relief therein asked for, reference is hereby made to said petition on file herein. Dated the 27th day of September, 1904.

HIRAM D. TUTTLE,
Judge of said Superior Court.

Endorsed, filed, Sept. 27, 1904.
HENRY A. PEISTER, Clerk.

By W. DENKER, Deputy.

H. E. WILCOX and D. M. BURNETT, Attorneys for Petitioners.

Japs and Chinese.

In a current report of the State Bureau of Labor and Statistics we find the following: "The total population in the United States of Japanese in 1880 of only 86, increased to 10,151 in 1890; since then 10,524 Japs have landed in the port of San Francisco alone, coming direct from Japan, while in only the last twenty months 7,942 have arrived from Honolulu and Victoria. The report asserts that at least 25,000 Japanese have arrived in San Francisco since 1900.

"The Chinese, on the contrary, are becoming fewer every year. The Chinese population of 75,122 in 1880 in this state has shrunk to 42,753, or a decrease of 39 per cent. The mining districts of 23 counties have witnessed a decrease of 80 per cent of their Chinese population in the last few years."

Home-Made Cement.

A home-made cement that will mend broken crockery is worth knowing about. Here are several formulas: Unslacked lime, or plaster of Paris mixed with the white of an egg till the consistency of cream, is excellent. Plain white lead will do also, and, moreover, this is one of the few cements that will resist water and heat. One other that is waterproof, is made by dissolving ordinary white glue in warm milk.—*McCall's Magazine.*

Choice of Routes East

Is offered by Southern Pacific. You want the best—the one that suits you best. TAXES, 1904

OFFICE OF THE TAX COLLECTOR,
County of Santa Clara,
San Jose, October 10th, 1904.

NOTICE IS HEREBY GIVEN THAT the taxes for the year 1904 are now due and payable:

FIRST INSTALLMENT—Taxes on all personal property, a lien on or secured by land, all special taxes, and one-half of the taxes on all real property are delinquent on November 28th, 1904, at 6 o'clock p. m., when 15 per cent. will be added to all of said first installment remaining unpaid.

SECOND INSTALLMENT—The remaining one-half of Taxes on all real property will be due and payable January 4, 1905, and delinquent April 25, 1905, at 6 o'clock p. m., when 5 per cent. will be added to all taxes remaining unpaid.

Taxpayers may, if they desire to do so, PAY THE WHOLE TAX AT ONE PAYMENT.

For the purpose of receiving taxes I will be in the several townships of the county, as follows:

MORELAND DISTRICT:—At the Bank of Campbell, in the Town of Campbell, on Thursday, October 27th, 1904.

And in my office in the Court House of San Jose daily, Sundays and legal holidays excepted, from 9 a. m. to 5 p. m. to and including Monday, November 28th, 1904, and Monday, April 25th, 1905, at 6 p. m.

The second installment of Taxes is payable at my office in the Court House in San Jose.

N. B.—All persons who paid the County Assessor their personal property taxes for 1904, at the tax rates of 1903, are hereby notified that the rate for 1904 having been increased, there remains due a balance, payable at my office under the same conditions as to delinquency as the taxes on real property.

W. M. A. JANUARY,
Tax Collector of Santa Clara County.

points along Campbell and Hamilton avenues and other places where necessary. The ditches are being deepened and widened in order to accommodate a larger flow of water. We understand that there are many more important improvements to be made. This company is running a large ditch through Sunny Oaks district and will tap the country to the west and north.

The Orchard City Ditch Company, or Page Ditch as it is known by, is also running a very large ditch through Sunny Oaks and will also tap the country to west and north. So far work has not been commenced on the laying of the 48-inch iron pipe along Railroad avenue and across Campbell avenue. This is soon to be put in, however. This company has had its ditches enlarged so as to take all the water possible.

With the improvements being made and which are to be made it is safe to say that Campbell will lead all other sections of the county in the matter of irrigating facilities and enterprises. It is a great thing for our section.

Masquerade Party.

Miss Anna Ross gave a masquerade party recently to a number of her friends, which furnished an unlimited amount of enjoyment to the jolly company. Many remarkable disguises were donned for the occasion, but among them all Miss Avenel Brandenburg as Mrs. Katzenjammer, and Stuart Smith as an old woman, were perhaps best carried out.

A delicious supper, games and music completed the evening's pleasure. Those present were: Mr. and Mrs. Ross, Misses Anna Ross, Charlotte Davis, Allie Hut-ton Avenel Brandenburg, Clara Powers, Lena Swope, Mabel Ross and Miss Shepherd; Messrs. S. S. Smith, E. A. Powers, Dwight Ross, Leigh Rogers, Geo. Schuyler, C. A. Beardsley, Harlow Plimpton, Will Ross.

Santa Clara Valley Water Company.

Notice to Stockholders of Santa Clara Valley Water Company.

NOTICE IS HEREBY GIVEN, THAT in accordance with a resolution of the Board of Directors of Santa Clara Valley Water Company, a corporation, which was duly adopted at the regular meeting of the said Board of Directors, held on the 5th day of November, 1904, a special meeting of the stockholders of Santa Clara Valley Water Company will be held on the 14th day of January, 1905, at the hour of 2 o'clock p. m. of that day at the office of the Santa Clara Valley Water Company, at Campbell, in the county of Santa Clara, State of California, in the building known as F. D. Duncan's residence, that being the principal place of business of the office of said company, and the building where the Board of Directors usually meet; for the purpose of taking into consideration and acting upon a proposition to create a bonded indebtedness to the amount of Twenty-Five Thousand Dollars (\$25,000), and to provide the terms and conditions thereof, and everything else in relation thereto; to the end, and for the purpose, of providing means and raising moneys to pay existing indebtedness and indebtedness to be incurred in the construction and completion of its works and the acquisition of new properties, works and facilities within its corporate powers and within the purposes and objects of the corporation.

Dated this 7th day of November, 1904.
C. H. WHITMAN,
Secretary of Santa Clara Valley Water Company.

HEARD ON THE STREET.

—That Charles Sutter went broke on Wynn.

—That the darkey trio caught the crowd.

—That now is the time we need a reading room.

—That E. F. Woodhull came near losing his vote.

—That there are no Parker men now in Campbell.

—That Eli Wright beat out Roosevelt in Campbell.

—That band leader Phelps has to keep a stiff upper lip.

—That the Campbell band is making a "rep" for good music.

—That Priestley's alto was very badly missed by the band boys.

—That Ed. Gilman doesn't yet understand how it all happened.

—That the voting machines are a great thing for straight-ticket voting.

—That Jesse Kuykendall is not slow when it comes to campaigning.

—That many people will now begin to investigate as to what socialism is.

—That Prof. Pannell has lost none of his old-time vigor when it comes to playing a cornet.

—That the democratic county officers are wondering what will happen two years hence.

—That the country is now safe and we may return in confidence to our several avocations.

—That Henning came prepared to make a red-hot speech Monday night but could not get it off.

—That "Nick" Bowden got struck on the juvenile Phelps horn player of the Campbell band.

—That a picture of Arthur Fay beating the "snare" would receive a premium. He never bats an eye.

—That the Roosevelt landslide and the voting machine saved the bacon of many republican candidates.

—That it is as good as a circus to get S. Hutchins and James Smith discussing republicanism and socialism.

—That a limburger cheese factory has been suggested for Campbell, to offset the prune smell from the packing houses.

—That it would be a great benefit to have a street run directly west from the depot through the water company's yard and on to the grammar school.

—That one Campbell man thought he cast his vote, but remembers now that he did not pull the party ticket lever and consequently voted for no one.

—That after the result of the election at Campbell was announced in San Jose a Campbell voter was eyed with suspicion—fearing, perhaps, bodily harm after reading such a result.

—That Since Campbell is threatened to be a socialist center, Joe Gard has given an order for a large platform to be built on Campbell avenue, where nightly he will hold forth in an attempt to convert the remainder of the votes to the cause of socialism.

The *Oriole* for November made its appearance the first of the week. It was, as usual, an interesting number and well filled with ads, showing much effort on the part of Manager Ralph Hyde.

Will Work in Interest of Prunes.

With a strenuous itinerary in prospect, Rufus P. Jennings, Andrea Scarborough and F. J. Koster, representing the San Francisco chamber of commerce, the Manufacturers and Producers association and the Merchants' association, respectively, on the executive board of the California Promotion committee, have started for the east, says the Mercury. They will be gone a month and during that time will visit St. Louis, Chicago, Detroit, Boston, New York, Baltimore, Washington, Philadelphia, Buffalo, New Orleans and El Paso.

While in the east the trio will take up personally many important matters in the work of the California Promotion committee, among them being the selection of officers and offices in New York and Chicago for the distribution of California literature, the attendance upon many important national gatherings and

an effort to have California prunes and raisins listed as a ration for the army and navy and also on Indian reservations. Other matters that will receive their attention will be to recommend the improvement of the Presidio, the question of co-operation of the federal government improvement of the Sacramento and San Joaquin rivers and the question of supply for the isthmian canal from the Pacific coast.

Antidotes for Poison.

Soda, saleratus, potash or any other alkali is rendered harmless by acids, as vinegar, tomato juice, etc. Arsenic needs oil or melted fat, with magnesia and lime-water in large quantities, till free vomiting is brought about.

Phosphorus, which is frequently bitten off the ends of matches by children, demands magnesia and large drafts of gum arabic or any other sort of gum water.

Our Farce-Comedy at St. Louis.

The wrangles in the California commission to the St. Louis Exposition have marred and hampered the plan to advertise the state and its resources to an extent that can hardly be appreciated, says the Oakland Tribune. We had the same experience at Paris. In both cases the wretched quarrels and recriminations can be traced to the same causes—sectional rivalry and jealousy. The Los Angeles district wants the best of everything and is determined to get it by hook or crook, quite regardless of means and the rights of others. At St. Louis, the representative from the southern end of the state is a pushing, resourceful, wide-awake chap, who holds that the duty imposed by his commission ends at Tehachapi—that the rest of California is a foreign country that is to be bested if possible. Naturally harmony in the commission with such a man as a member is an utter impossibility. Then feminine snarls took a sectional turn, and to make matters worse the superintendent of the state mining bureau decided to cut a wider swathe than met the approval of the commission. He wanted \$10 a day for his expenses while the commission thought he ought to get along on \$5 a day. He came home in a huff, and the secretary of the commission resigned in a rage because he could not get along with the Los Angeles end of the commission. It is a very pretty row all round, with some ludicrous phases and aspects, but it is a shame and an injury to the state. Public money has been expended to poor advantage if not wasted altogether by a series of squabbles whose echoes have given the people at home a tired feeling and a sense of indignant disgust. California should send no more triple or double-headed commissions to fairs. Two commissioners quarrel. Wives of two commissioners quarrel still more. The secretary invariably regards one commissioner as being superior to the others—a fine example of too many cooks spoil the broth. There should be just one commissioner—one boss—and he should have just one wife and one state to advertise—not two. This is the long and the short of the whole business. Three commissioners mean soft snaps for one or two and extra hard work for the other; also confusion, wrangling and bedchamber contention. In future the state's exhibit at a foreign fair should be placed under the exclusive management of one man.

One of the most pitiful sights in the world is an intelligent, energetic, progressive woman married to a worthless man who doesn't know much.

When a girl buys her wedding outfit she should leave her father enough money to pay for the relief expedition he may be compelled to send her later on.

RAILROAD TIME TABLE.

PRESS NOTES

W. H. Moore is very ill.

Vaughn and Merle Lloyd have been on the sick list this week.

Charles Beardsley and Earl Wakeman came home from Stanford to vote.

E. Pagel has gone to Sacramento to visit his wife, who, we understand, is not so well.

L. C. Watson has started in to build a cottage adjoining his residence on Campbell avenue.

Miss Margaret Tapter of San Jose, and Frank Finch of Oakland, are guests of Mr. and Mrs. J. S. Fay.

All socialists are requested to meet at J. B. Gard's home next Monday evening on business of importance.

B. Campbell accompanied Mrs. George A. Davis and children to San Francisco to see that they got aboard ship all right.

The Ladies' Aid was very successful with their election dinner. A most excellent meal and a very pleasant time was enjoyed by all.

The first quarterly conference of the M. E. church was held on Tuesday morning at the church, Presiding Elder W. S. Matthews, D. D., being present.

When the deputy tax collectors were here a couple of weeks ago they were very successful in money getting, having received \$1,873.44 during the day.

Mrs. Ethel Davis and children left yesterday for Fort Bragg, Mendocino county, where Mr. Davis has a position in a jewelry store.

On Nov. 18th the Woman's Guild of the Congregational church will give a "swap social," to which all are cordially invited. Please bring some trifle, securely wrapped and tied, with you. Refreshments, 10c.

Louis Disque, who owns a choice orchard at the corner of the Santa Clara road and Payne avenue, but who lives between Campbell and Los Gatos, has shipped a carload of packed fruit to Illinois, and Mrs. Disque has gone east to dispose of the same.

Services in the Congregational church Sunday, both morning and evening. It is expected to have at the morning service Rev. E. H. Hadlock, of San Francisco, recently of Boston, travelling secretary of the Christian Endeavor union. All are cordially invited.

The Degree of Honor had a great time last Monday night when Los Gatos and San Jose sent a large number of visitors, including the prize drill team of San Jose. A jolly time and a good banquet. The band boys serenaded them and were asked in to partake of Degree hospitality.

The Interurban company is putting in a "Y" on Central avenue, by the Nevada House. This is to allow cars to turn. The telephone wires for use in dispatching cars are up as far as Campbell, and as soon as the switches, etc., are in and the road ballasted between here and Los Gatos everything will be in shape for regular service. Day by day the work is being pushed to completion and we may expect to see cars running by Dec. 1st.

Mr. and Mrs. A. G. Williams are now visiting their daughter, Mrs. Grattan, at Barr, Colorado.

B. Campbell accompanied Mrs. George and children as far as San Francisco and saw them safely on the boat.

E. Priestley is getting along nicely but he has a severe wound which will keep him laid up for a long time it is thought.

The democratic rally Monday night proved to be the largest affair of the campaign. Packed house, good music, good speakers, bonfire and a Cuban tight rope walker were the features. As the campaign is over we defer from elaborating.

A week ago the wily candidate
Roamed o'er the country's land
And grasped the weary voter
By his sturdy good right hand;
But now the voting's over
And the totals are all taken,
'Tis not the voter's hand,
But the voter who is shaken.—Ex.

Dr. and Mrs. Gates met with quite an accident on Wednesday while making a professional call in the Willows. In turning the horse and buggy around the rubber tire caught against the buggy in such a way as to suddenly tip the rig over, throwing the occupants upon the ground, bruising Dr. Gates considerably, Mrs. Gates getting off a little more fortunately. The horse ran away with the rig, smashing it to pieces, before the animal could be caught.

The W. C. T. U. gave an entertainment last Friday evening at the Congregational church. Mesdames Savage and Whitman, delegates to the Chico convention, gave interesting reports. Selections were read by Mrs. Poor and Mrs. Merrill; a piano and violin overture by Mr. Pannell and Miss Emily Pannell; vocal solos by Miss Davis and Mrs. Butts; piano and mandolin duet by the Misses McMurray; duet, Mr. Pannell and Miss Emily Pannell. Refreshments were served and a social time enjoyed.

For some time the odor which has swept over the town from the cesspools of the dryer have been a serious annoyance, coming on in the evening with the south breeze. We have interviewed the manager of the dryer, S. G. Rodeck, and learn that every effort has been made to mitigate the trouble. Barrels of lime have been used and the cesspools emptied by pumping to the ground above, on the recommendation of the health officer, Dr. Gates. Mr. Rodeck thinks that the odor does not indicate any menace to health, as the cesspools contain only fermented prune processing liquid, and no sickness has resulted in previous years. At any rate, no remedy at present seems to be considered possible. So it seems that the only thing for the sufferers to do is to grin and bear it, or burn a rag, or perhaps keep the pig in the parlor as a sort of counter irritant.

REPUBLICAN AVALANCHE.

Roosevelt Carries Country by Immense Vote.

To say that everyone was surprised at the great republican landslide is to speak mildly. Think of this State giving over 115,000 plurality for Roosevelt, sweeping into office all eight congressmen, prac-

tically the entire legislature and county officers wherever nominated.

It was a severe rebuke to the gold democrats who forced Parker upon the party when the rank and file did not want him and few democrats are found complaining.

Our prediction that the Socialist vote would be large has been sustained. In this State alone Debs will no doubt get 35,000 while upwards of 1,000,000 have voted for him in the United States. In many places he polled more votes than Parker, notably in Chicago and Milwaukee, where members of the legislature were elected. It is a force that must be dealt with hereafter.

Roosevelt's popularity swept many a republican into office, some in this county. His vote in the electoral college will be 343 to 133 for his opponent.

Bryan proved a much stronger candidate and is today the leading man in his party.

Following is the vote at Campbell:

PRESIDENTIAL ELECTORS.	
Republican	182
Socialist	77
Democrat	53
Prohibition	19

JUSTICES SUPREME COURT.	
Wm. G. Lorigan, Republican	182
Herman G. Walker, Socialist	67
M. T. Dooling, Democrat	60
